

Figures

Figure 1: A line graph showing the relationship between the concentration of a solution and its refractive index. The x-axis represents concentration in g/100 ml, ranging from 0 to 10. The y-axis represents refractive index, ranging from 1.00 to 1.10. The data points show a linear increase in refractive index with increasing concentration.

Concentration (g/100 ml)	Refractive Index
0	1.000
2	1.010
4	1.020
6	1.030
8	1.040
10	1.050
